PROJECTS

Expense Counter — Java Project

Helps to identify and eliminate wasteful spending habits in your financial life.

Enhomes – Android Project

E-Society App is for managing various apartment communities, villas, and housing societies smartly. This application enables communicating updates over mobile, email, etc. E-Society is one such application that is helpful for apartment management. With this solution, we are trying to automate all the manual work regarding the housing societies.

Test Killer App – Android Project

This app is basically for students who can perform their exams on this particular app and they get results on the spot and many features are there.

Citizen Care App – [The application will be available on the Play Store.]

This app's vision is to be the one-stop hub where talents and customers are nourished. We're expanding into retail, offering a diverse range at unbeatable prices. Plus, our rewards system makes it all even better – loyal customers and dedicated vendors both win big. By blending services, retail, and rewards, we're creating a dynamic space where everyone gets the best. Our goal is to be the go-to place that's seamless, rewarding, and thriving for everyone in our community.

[The application is available on the Play Store.]

Community App – [The application will be available on the Play Store.]

The Gujarati Community USA Mobile App is poised to revolutionize the way the Gujarati diaspora in the USA connects and thrives. By fostering a digital hub for cultural exchange, networking, and support, this app promises to unite and empower generations. Its potential to preserve

heritage, facilitate mentorship, and amplify opportunities could leave a lasting, positive mark on the community's identity and progress for years to come.
